TO THE GREAT EASTERN.

LONDON, Jan. 21.  
A vessel has been sent for the safety of the Great Eastern. The vessel arrived yesterday, bringing news that she was spoken on the 1st of December in the South Atlantic ocean.

SERIOUSLY ILL.

PARIS, Jan. 21.  
Baron Haussman ex-Prefect of the Seine, is dangerously ill.

A Formidable Strike.

PARIS, Jan. 21.  
The strike of operatives is still continuing and is making a profound sensation throughout the country on account of the large number of workmen engaged in it. It is feared by the government that the example the strikers have set will be followed elsewhere, and this is not all, as it is supposed the strike was brought about by revolutionary agents, and this idea is strengthened from the fact that their numbers are increasing and their demand becoming more and more unreasonable.

La Graseta is one of the greatest iron manufacturers of Spain. The strike, which the leaders of the workmen are carrying on, is causing heavy losses, which is increasing every day. The primary cause of the strike was a change in the general direction of affairs there, to which the working men objected. They petitioned for reinstatement of an old director, which was refused. A dreadful accident, the nature of which has not transpired, occurred there yesterday, whereby several miners were killed, and this had a tendency to increase the general excitement. Semi-official journals say the troubles at La Graseta have been greatly increased by the distribution of extreme radical journals among the workmen. M. Schneider, one of the largest proprietors of the works, had arrived there. Several companies of troops have also arrived on the scene and others are on the way.

Gottschalk Dead.

NEW YORK, Jan. 21.  
The steamer ship South America, from Rio Janeiro, December 25th, bringing the melancholy intelligence of the death of Louis M. Gottschalk, the celebrated pianist and composer. While giving a monster concert at Rio Janeiro he fell senseless at his instrument during the performance of his favorite composition, La Mite. He was taken to the hospital, where he lingered three weeks and expired on the 18th of December. The Emperor continued to pay him a visit daily to obtain tidings of his condition. His funeral was conducted by the Philharmonic Society of Rio Janeiro and attended by an extraordinary number of persons of all nationalities. The remains were deposited in the Cemetery of Saint John the Baptist.

General News.

Prince Arthur and his party are to arrive at the Breyer Hotel this evening by the Hudson River Railroad. Mr. Thomson, the British Minister, and the reporters, will receive them at the depot and escort them to their apartments. The best apartments at the hotel have been engaged, and the establishment is on tip toe with expectation of the distinguished guests. No arrangements have been made of a public character for their reception.

The Spanish Court in this city is in receipt of a dispatch conveying the intelligence that the two insurgent chiefs, Coon and Ceballos, have abandoned the cause of independence and issued a proclamation in favor of the Spaniards.

The Madrid Journal, Madrid, correspondent of the 24th says that all States of the world are ready and anxious to reconquer their government, during which he mentioned that the Bay of Santander had been leased to the United States Government, and that said government has granted their protection to the Dominican Government, and hoped that the Haytian authorities would not interfere with the present order of things.

Operators in Wall street, who forgot to pay the tax on their money-making capital are now rapidly discharging their obligations to the government. Yesterday one of the legal representatives at Brooklyn paid \$8,000 into the court on behalf of his client and other checks are to be handed in today. It is believed that the whole amount to be paid by brokers, against whom proceedings had been commenced, will be over \$10,000.

It is stated that some four million worth of stock of the Chicago and R. I. R. have been quietly put on the market in Wall street. The market this morning heralds the action of Iowa and Ohio in ratifying the Fifteenth Amendment. No let Georgia strike, and then let us see if the longer advocacy of revenge and delay in Georgia can withhold the admission of Virginia. The representatives and Senators which alone is needed to give validity to her recently recorded vote and make the Fifteenth Amendment a part of the fundamental law of the land.

Ellen Rebecca Pitt, convicted of manslaughter of Thos. H. Birrell, was sentenced by Judge Birrell to one year's imprisonment in the State prison.

Prince Arthur and suite arrived at the Union River depot at 12 o'clock, noon, and were met by Thorntom and suite. They took carriage and drove at once to the Brayton House.

Telegraph Lines Demolished.

CINCINNATI, Jan. 21.  
A special from Omaha dated yesterday says: Passengers from the west report more than forty miles of telegraph lines, including R. R. and commercial lines, almost entirely demolished by the recent storm. Some of the lines are being repaired as rapidly as possible. There is no communication west of Grand Island.

The Indians.

A letter from Fort Laramie states that a band of Indians captured 40 head of cattle from a herd named Mills on the 14th.

Hobart papers report the arrival of Mr. Crow, Indian agent, from Fort Parker. In the Yellow Stone Valley the Indians are all contested. General Sully has caused the creation of a substantial mill and farm houses. It is expected that the Indians will help in the cultivation of the soil next spring.

Gen. Scott has just received official information from Fort Randall showing that there is no sign of the Indians in the mass of the Banks survey party in the Republican river bottom. Eight whites were killed in the first attack, and several captured but were subsequently murdered by another band of Indians.

In General.

WASHINGTON, Jan. 21.  
The House Committee on Judiciary have agreed to the resolution that Judge Waterson, of Texas, should be resigns, shall be paid his salary for the remainder of his life, but in case he should not do so, the President will be authorized to nominate an assistant judge to discharge the duties. This course is suggested by the fact that Judge Waterson is now considered disgruntled by mental disability.

The President to-day sent to the Senate the following nominations: Wm. Cambell of Ind., Minister Resident at Portugal, Vice Shallow, resigned; C. S. Mead, of New Jersey, Assistant Secretary of Legation at London, Vice Baden, resigned.

The Committee on Banking and Currency to-day examined C. S. Osborn and Richard School, of New York, in reference to the gold panic.

The Committee on Ways and Means this evening reduced the duty on molasses from 8 to 5 cents. They will also reduce the duty on sugar, tea and coffee, leaving the bulk of duties on manufactured goods unchanged.

Murder Executed.

LIVERPOOL, Jan. 21.  
Wm. Kriel was hung to-day. He ascended the scaffold with a quiet, light step. Though his neck was not broken the empiral died quite easy, for in eight minutes his pulse ceased to beat. Fully ten thousand people witnessed the execution.

Premiere Dangerously Ill.

George D. Prentiss, veteran editor, is again gravely ill and in a dying condition.

Murder Trial.

READING, Pa., Jan. 21.  
John Dugay, arrested yesterday for the murder of Michael Harlan, near Lockport, the trial will probably occupy two or three days.

George D. Prentiss, veteran editor, is again gravely ill and in a dying condition.

CARD.—Having this day sold out my entire business in general clothing, hats, caps and gents' furnishing goods to Messrs. McFurland, Smith & Co., I take this opportunity to tender my sincere thanks to my friends and the public for their patronage during the past seven years, and most respectfully solicit a continuance of the same for my successors.

J. A. Losse.

COPARTNERSHIP.—The undersigned having this day purchased the stock, good will, &c., formerly owned by J. A. Losse, in the general clothing, hats, caps, and gents' furnishing goods business, have formed a copartnership under the firm name of McFarland, Smith & Co., and will continue the business at the old stand, corner of Spring and Franklin streets.

Outstanding accounts will be collected and adjusted by the new firm.

JOHN D. McFARLAND,  
GEORGE L. SMITH,  
N. IRWIN SHREVE.

Titusville, Pa., Dec. 29, 1869.

Our annual Petroleum Report will be presented in Monday's issue.

PETITIONS are circulating in Forest county in favor of the new county.

GREAT bargains in pianos, first-class make, by the agent, at Myer's furniture store

The Oil City Times reports a dark transaction which has excited great indignation in that community.

A NEW post office has been established at Freckleton, Crawford Co., and Gummie Deve, appointed postmaster.

There will be no services at the Baptist Church to-morrow, except of the Sabbath school, which will commence at 12 o'clock.

The gas mains are to be extended through nearly all the streets next spring. The demand for its introduction to private houses is almost universal.

TURKEY.—Wm. Shuttle has a splendid stock of poultry this morning, the turkeys being extra fine. His store abounds in game, such as pheasants, quails, &c.

THE many friends of Dr. Bailey will be pleased to learn that he has so far recovered from his severe and protracted illness as to be able to resume the practice of his profession.

THE citizens of Greenville, Mercer county, are agitating the subject of a Library Association. Fifteen shares, forty dollars each, have been subscribed, and the project looks as if it would be successful.

THE recent shooting in Oil Creek carried away a section of Mr. Shoemaker's dwelling which jutted over the stream near Franklin street bridge. Happily it was unoccupied, and the loss was trifling.

THE next lecturer is Dr. Hayes, the Arctic Explorer, who is to be followed by Anna Dickinson, who completed the course. Other parties we understand, have engaged. Nabby, and one or two other lecturers, whose names are not reported.

WE understand a considerable sum of money has been subscribed by property holders on Church Hill, to defray the cost of widening and deepening the channel. The subscribers should now hold a meeting and adopt measures for carrying out the project.

Mr. T. M. Wixt exhibited his Sun pictures again last night at the Presbyterian church, before a select and highly appreciative audience. To say that his views are splendid is doing him but scant justice. They are magnificent. And so accurate and real that one feels, after seeing them, as though he had been traveling in person to the places represented.

GRAT. CLOSING OUT SALE OF CHURCH PAINTINGS ON MONDAY.—In another column will be found announcements of the great auction sale of magnificent paintings (now on exhibition at Rice's auction store) to take place on Monday afternoon and evening. The catalogue comprises some of the best works of distinguished American and European artists, and is a part of the collection exhibited recently in Corinthian Hall. All should avail themselves of the opportunity presented for securing at a chance price some rare and valuable work of art.

THE CLARION COUNTY TEACHERS' INSTITUTE.—The Clarion County Teachers' Institute convened on Monday, at two o'clock p.m. But few teachers were present, owing to the inclemency of the weather. The afternoon session was taken up by a miscellaneous discussion on educational subjects, and was very interesting. The night session opened at seven p.m., and was entertained by Mr. Morgan, editor of the Clarion Republican, who read selections. During this session Miss Stetson, electionist, of Philadelphia, and Prof. Dale, Superintendent of Venango county, arrived. An interesting and varied discussion completed the exercises.

AN IMPORTANT BILL.—Hon. H. C. Johnson, one of the Representatives from this county, has introduced a bill making some important changes in the duties and powers of Justices of the Peace in Crawford county. The bill makes it the duty of all committing magistrates, upon the commitment of any criminal, to make returns within five days, giving names and occupations of criminals and witnesses, to the District Attorney, and if not complied within the time, the magistrate to be deemed guilty of misbehavior, and upon conviction thereof to be subject to a fine not exceeding five hundred dollars. Also giving them power to receive recognizances, with sufficient security for the appearance of a person in the custody of the sheriff, or any of his deputies, or writers of ministrants (issued out of the Court of Quarter Sessions); and such recognizances shall be of the same effect as if taken by the Court or any of the Judges. Should the bill become law, of which there is little doubt, it will save a large amount of expense and trouble.

FUNK, JACKSON & FULLER.

### The Winter Tempest.

The present season has been peculiarly marked by storms, which, in some instances have been of the new country, and extended from the eastern seaboard to the Pacific slope. The visitation on Monday last came from the West, and, although severe in many of the Eastern States, seems to have spent its force before it crossed the Ohio valley, and culminated in the Mississippi Valley. At Cincinnati, St. Louis, Nashville, and the southern part of Indiana the storm was accompanied with heavy wind and thunder and lightning. In the vicinity of Cincinnati great damage was done to the railroads and telegraph wires, and some of the rivers in Ohio were higher on Monday than they have been before for twenty-five years, the Republican goes to say.

But every disinterested person will agree that it is a small absurdity to maintain the present county bounds, simply to accommodate a few tavern keepers or fraternized country seats which have no other business resources than result from the location of a Court House in their midst. The new county is a necessity from the present routes of travel. For example, those residing in Pleasantville visiting Pleasantville must pass through Crawford to reach Franklin by the nearest travelled route. Those again residing in Titusville have to pass through Erie County, to reach their county seat in Medina. Now one thing is obvious, either that additions should be made to other counties, for example Pleasantville and Titusville, or the two last two gentlemen wanted the principles published in two daily papers, Democratic and Republican, at Harrisburg, Mass., Oberholser, Olmsted and Mumma sustained the report. After a long discussion, it was referred back, on motion of Mr. Lowry, to the Committee. BILLS INTRODUCED.

Mr. Connell—For final adjournment on Thursday, March 17th.

Mr. Rutan—Declaring certain ground in the Ohio river, opposite Middletown, an island.

Mr. Turner—Making the mode of voting uniform through the Commonwealth.

RESOLUTIONS.

Mr. Rutan—Instructing the Judiciary Committee to inquire if any additional judges are required in the Supreme Court, and to report early by bill or otherwise. Adopted.

BILLS FOR THE CIVIL CODE COMMISSIONERS.

A communication from the Governor was read transmitting the following bills prepared by the Civil Code Commission:

Creating a Department of Instruction, for the education of youth and others of the Commonwealth.

Providing for taking the enumeration of the taxable inhabitants of the Commonwealth.

Providing for the support of the poor.

HOUSE.

PRINTING OF DOCUMENTS.

The resolution from the Senate for five thousand copies of the Governor's message was defeated—yes, 35; no, 50.

A motion to print the State Librarian's report was lost.

POSTAGE.

Mr. Davis, from the Ways and Means Committee, reported a bill from the Senate, allowing each member one hundred dollars for postage. Mr. Adair moved a reduction to fifty dollars each. Adopted.

THE GOVERNOR'S SALARY.

The bill increasing the Governor's salary was rejected negatively.

THE REPORT OF THE COMMITTEE ON HISTORICAL INVESTIGATION.

Speaker Stenger, two appointed Messrs. Adair, of Philadelphia, Ames, of Crawford, Bunting, of Williamsport, Hill, of Lycoming, McCrory, of Erie, Dill, of Union, and Ellis, of Schuylkill, on the Special House Committee authorized to investigate the affairs of the State Treasury.

DIED.

ZISCHKA.—At the residence of Wm. Urban, in this city, in the 6th year of his age, Rev. Dr. August Zischka, a learned and thorough classical education, studied with Hon. John Scott, now United States Senator, and was called to the bar in 1852. In 1857 he settled in Cleveland, and is now in the enjoyment of a very large and lucrative practice.

He had a large experience at the bar, having been engaged in very many grave and important cases. The people of his community and his support. To-night is the last night of the fair, and the chief feature of the evening will be the production of "Formosa, or the Railroad to Rio." Probably no play has been produced in modern years, has created the genuine excitement that attended its first production. It was written by Dr. Boucicault, one of the most prolific of modern dramatists, and who possesses a wonderful knowledge of stage effect.

Previous to the production of this play at Drury Lane Theatre, London, the dramatic circles of that city were unusually apathetic, and the author perceived that a sensation of a startling character was needed to rouse the public from their lethargy. He at once conceived the idea of a play, the heroine of which he selected from the Traviata and Aminta of Verdi—a bold step, and one which answered the very purpose the author intended, that of bringing down upon himself, through the columns of the public press, much virtuous indignation that any writer would dare to represent that class upon the stage. The purpose was served and the play was roundly abused for its immoral tone, previous to its production, and consequently well advertised. Judge of their surprise when, upon its production, they discovered that the play did not contain one word or allusion that would cause a blush to rise upon the countenance of the most fastidious. It was only in the preliminary announcements that the public were led to expect something of a highly immoral nature.

THE GALAXY.—Mr. Charles Read is unusually lively and cheerful in the instalment of "Put Yourself in His Place," which is contained in the Galaxy for February, having recourse to the pictorial introduction of a brazened coffin into the narrative—a novel horror, it must be admitted, in sensational novel-writing. The war of the English traitors' unions, however, is depicted by him with great power, despite the character of his style. As a relief to its darkness, there is a very sunny letter from Hayman, the first of a series that promises much entertainment. Anthony Trollope's "Editor's Tales" are continued in a pleasant account of the "Panjandrum Magazine." Thanks are due to that versatile and universal magazine writer, who seems to have seen all parts of the world. Mr. Justin McCarthy, for a sensible and plain-spoken paper on Brigham Young, in which the abilities of Mr. Hepworth, Dixon and other writers concerning Salt Lake City and the Mormon country are made distinctly apparent. Dr. John C. Draper discusses Voltaism in an intelligent and acceptable way; and some anonymous contributor writes of Roman Society quite agreeably, besides which there is the accustomed variety of Drift Wood, Miscellany and Nubile. Of the poetry, "Erimus's Spinning," by Mrs. Margaret J. Preston, is full of music and of vigor, and very far above the average of magazine verses. For sale at Howes' news room.

GOV. GEARY'S Cabinet will remain the same as heretofore. The following are the officers of the Administration now on duty at Harrisburg:

Secretary of State—Frank Jordan, of Dauphin county.

Deputy Secretary—J. M. Weakley, of Cambria county.

Attorney General—F. Carroll Brewster, of Philadelphia.

Deputy Attorney General—J. M. McClure, of Franklin county.

Private Secretary to the Governor—John H. Bunting, of Philadelphia.

Superintendent of Public Schools—J. P. Wickham, of Lancaster.

Superintendent of Soldiers' Orphan Schools—George F. McFarland.

Adjutant General—A. L. Russell, of Allegheny county.

The appointments over which the Governor has control, will not for the present be disturbed, although a pressure is expected to be made for some change.

MAYER BROS., at Miller farm, are doing an immense trade in coal, hay, grain and feed. By strict attention to the demands of the trade, by fair dealing and courteous bearing to all, they have built up a large business, selling some day one hundred loads of coal.

We are now closing out the balance of our winter stock at cost.

FUNK, JACKSON & FULLER.

THE NEW COUNTRY.

The Eric Reporters take an impartial view of the new country question, and presents the claims of that measure with great emphasis and appreciation. After vindicating Senator Lowry from the imputation of political trading on this account, and showing that he has no individual or pecuniary interest in the success of the measure, which he has advocated for twenty-five years, the Republican goes to say:

But every disinterested person will agree that it is a small absurdity to maintain the present county bounds, simply to accommodate a few tavern keepers or fraternized country seats which have no other business resources than result from the location of a Court House in their midst. The new county is a necessity from the present routes of travel. The Eric Reporters take an impartial view of the new country question, and presents the claims of that measure with great emphasis and appreciation. After vindicating Senator Lowry from the imputation of political trading on this account, and showing that he has no individual or pecuniary interest in the success of the measure, which he has advocated for twenty-five years, the Republican goes to say:

But every disinterested person will agree that it is a small absurdity to maintain the present county bounds, simply to accommodate a few tavern keepers or fraternized country seats which have no other business resources than result from the location of a Court House in their midst. The new county is a necessity from the present routes of travel. For example, those residing in Pleasantville visiting Pleasantville must pass through Crawford to reach Franklin by the nearest travelled route.

Those again residing in Titusville will have to pass through Erie County, to reach their county seat at Franklin. The Eric Reporters take an impartial view of the new country question, and presents the claims of that measure with great emphasis and appreciation. ## SPECIAL NOTICES.

Nitro-Glycerine, its Invention—  
History—  
The discovery of Nitro-Glycerine was made by a  
Frenchman, named Aspin, who was a chemist, and  
manufacturing a large quantity of salts in a given  
portion of time, he was compelled to use  
it in his experiments, further research, with the  
declared opinion that its combustibility or explosive  
power could not be managed. In this condition the discovery or inven-  
tion was caused utterly useless to men of science,  
and to science itself the discoveries and inventions of  
Alfred Nobel, a Swedish engineer, who brought it into  
practical service in the useful arts.

He discovered—  
1st. That in order to explode the whole or even a  
large proportion of a mass of nitro-glycerine, it was necessary to subject it to confinement or restraint, and that  
when so confined it could be exploded in any desired  
quantity by the application of heat and pressure, or of  
either of these agencies.

2d. That it could be used for practical blasting, and  
disrupting materials, substances, generally.

3d. A method of manufacturing nitro-glycerine in  
any desired quantity, and with greater economy than  
hitherto known.

4th. The processes or contrivances necessary to  
successfully explode nitro-glycerine in any desired  
quantity under the management of man, or of  
practical intelligence.

In order to give a reader to understand these dif-  
ferent discoveries or inventions of Mr. Nobel we make  
the following brief explanations:

1st. That nitro-glycerine, when under conditions of  
confinement, or is exploded in any desired quantity.

There is a class of explosive substances, comprising  
nitro-glycerine, the nitrate of ethyl and methyl and in  
tri-nitro-mannite, which have long been known, but have never  
been practically applied as explosive agents. When

578 deg Fahr. of heat is applied to granulated gun  
powder, the whole mass is exploded. Gun-cotton will  
explode in proportion to the degree of confinement, in  
a mass of 100 lbs. will explode when subjected to 310  
deg Fahr. Nitro-glycerine will explode at 370 deg Fahr.

The decomposition of the above, and other acids  
of glycerine, however, takes place at much lower  
temperatures when subjected to pressure. Gunpow-  
der will explode to a certain extent when not confined  
but on the application of heat or flame to nitro-glyc-  
erine or other of the liquids above mentioned when un-  
confined, only that portion of the liquid is decomposed  
which is acted on directly by the heat or flame, so that it  
is practically impossible instantaneously to explode  
the entire mass. Nobel discovered that when nitro-  
glycerine, manate, or other of the materials mentioned,  
is confined, and a portion of the same is heated to  
decomposition, the gases evolved act at such an intense  
heat, and subject the material to such an excessive  
pressure, that the whole mass is decomposed almost  
instantaneously.

The degree of confinement must be sufficient to allow  
a pressure upon the nitro-glycerine, in excess of that  
360 deg Fahr. will be realized, just as in the con-  
fined, and subject to pressure, gunpowder, gun-cotton  
and the like, and will find immediate benefit  
in using these bitters and no family should be without  
them. In fact they are

## GROCERIES.

## FIRST MORTGAGE BONDS

## OF 1871

## Chicago, Danville, &amp; Wheeling

## RAILROAD.

## Total amount to be issued, \$2,500,000

## Capital Stock paid in, \$2,000,000

## Estimated Cost of Road (40 miles) \$500,000

## Estimated earnings per annum, \$20,000,000

## Interest on Loan per annum, 175,000

## Amount Bonds per mile of Road, 19,000

## Amount of Interest per mile, 1,260

## Amount of Net Earnings per mile, 6,281

## The Bonds follow the completion of the Road—the

## Union Trust Company of N. Y. as their agent to be

## settled, and to be paid at present or at

## any and neutral interest.

## They are now in circulation, letter. It is

## settled, than any other now before the public, in the

## fixed and unchangeable elements of Safety, Security

## AND PROSPERITY.

## They beat gold interest—\$200 per cent. for

## five years—annual secured by a SINKING FUND and

## First Mortgage upon the road, its outfit and in the

## lands, the franchises, and all present and future

## property of the Company.

## They depend on no new or half settled territory &amp;

## liabilities to pay their interest but upon roads, w. &amp;

settled and productive country, securing that a mil-  
lion dollar through the heart of such a vast area, better  
suited for both business and residential, has

## a road to run through the most highly trafficked

## territory.

## This railroad possesses special advantages, in running

## out of the city of Chicago an important rail-

road and commercial route, in running through a  
large and very populous settlement in the  
western portion of the state, Illinois, in running

## out to deposit of Lead, Zinc, &amp; &amp;c.

## and over 1,000 miles the best road in the State.

## This railroad interlaces with 100 miles of

## the local and other business roads, thus, it will be

## able to meet the road, the railroad directly

## and to the road, the railroad directly
